

Jason Chieng

Mechatronics Engineering Student | Robotics, Control Systems, Embedded System Design
Auckland • jchieng2004@gmail.com • 0211389626 • <https://www.linkedin.com/in/jason-chieng/>

Summary

Mechatronics Engineering Student with a strong interest in robotics, control systems, and embedded design. Experience in collaborative engineering projects and hands-on prototyping, with a proven ability to apply theoretical concepts to real-world problems. Eager to contribute to innovative engineering solutions while continuing to develop technical and problem-solving skills.

Education

UNIVERSITY OF AUCKLAND

Auckland, NZ

Bachelor of Mechatronic Engineering (Honours). GPA: 8.33

Predicted Graduation Date: 2027

KINGSWAY SCHOOL

Silverdale, Auckland

Graduation Date: 2023

Achievements

Dean's Honours List

University of Auckland

Feb 2025

- Awarded for ranking in the **top 5%** of the Mechatronics Cohort

First in Course - MECHENG201: Introduction to Mechatronics

Oct 2025

- Achieved the **highest overall mark** in the course

Professional Experience

Mechatronics Engineering Intern

BOA Hydraulics — Auckland, New Zealand

Dec 2025 – Feb 2026

- Developed a **machine learning and computer vision system** for a thread identification tool
- Contributed to **mechatronic system design and implementation**, including CAD modelling and embedded control
- Redesigned a **hose reel system** using rapid prototyping and iterative design improvements
- Gained experience integrating mechanical, electrical, and software systems in an industrial environment

Projects

Mini Warman Challenge (4th place out of 60 teams)

Mar 2025 - Jun 2025

Team Member | Mechanical and Electrical Systems

- Contributed to the mechanical and electrical design of the robot (Collaboration)
- Gained hands-on experience with Arduino, 3D printing and laser cutting
- Collaborated with the team to develop a functional solution under time constraints (Time Management)

Autonomous Delivery Robot - Control System Project

Team Member | Software System

Mar 2025 - May 2025

- Designed and implemented PI and P control algorithms to ensure accurate payload delivery
- Applied control theory concepts to a real-world autonomous system

Image Filter Project

Individual | MATLAB

Aug 2024

- Developed a custom image filter using algorithms in MATLAB to blur, enhance, and colour-tone digital images
- Gained experience in MATLAB scripting, working with matrices and visualisation tools.
- Strengthened skills in algorithm optimisation and debugging in MATLAB.

Skills

Technical Skill

- **Programming:** C, C++, MATLAB, Python
- **CAD:** Autodesk Inventor, Fusion 360
- **Electronics:** Arduino(ATmega328p), Soldering, Embedded systems
- **Manufacturing Processing:** Milling, Turning, Welding, 3D printing
- **Engineering:** Control systems, prototyping, system integration

Soft Skill

- Communication, Presentation, Collaboration, Time Management, Problem-solving, Adaptability, Leadership, Teamwork

Language

- English (Fluent). Chinese. Malay

Experience

KUMON: MATH AND ENGLISH LEARNING PROGRAMME

Silverdale, Auckland

Tutor

Jun 2021 – Dec 2024

- Assist students in mastering English and Mathematics concepts spanning from primary to secondary levels.
- Provide individualised support to enhance students' problem-solving and literary skills.
- Track student progress and adjust teaching methods to suit their learning needs.

Leadership and Volunteer Experience

SILE CHINESE CAMP

Milford, Auckland

Caregiver

1 Oct 2018 - 5 Oct 2018, 10 Apr 2023 - 15 Apr 2025

- Planned and led activities promoting teamwork and creativity
- Managed groups of children and ensured smooth daily operations

PEER SUPPORT COUNCIL

Silverdale, Auckland

Organiser

Feb 2023 – Nov 2023

- Organised events to support the transition of younger students
- Promoted mentorship and student engagement
